YALEMBRHAN KELAYNEH ASFAW

Junior cloud practioner and cloud consultant

I'm a social worker and a software engineer with a diverse background and a passion for technology. I started my career as a teacher in a primary school, where I learned the value of education and social impact. I then pursued my interest in computer science and enrolled in an extension program at CPU college. After completing my BA, I joined ALX Software Engineering Program to sharpen my skills and potential in the tech industry.

WORK EXPERIENCE

Junior cloud practioner and cloud consultant

Nedameco Africa

feb 2023

- Provide and configure AWS Core Services and infrastructure components.
- Monitor measure and report on infrastructure load and performance.
- Automate sys admin tasks in an AWS core services environment by designing, coding, and testing simple programs/scripts using Python and Bash.
- Configure basic network components and assist in the resolution of network problems.
- Assist with security configurations and monitor security events.
- Maintain database and administration tasks.
- Allocate and configure storage with AWS S3 storage system.

Data Mapping and Business Development Fellow

Sand Technologies

sep 2023-Dec 2023

In my role as a Data Mapper at Sand Technologies, my primary focus was on bridging the gap between the exceptional talents nurtured within ALX and the diverse requirements of companies with open positions. This involved a strategic blend of data analysis, talent profiling, and connecting the dots to facilitate seamless placements. The role emphasized:

Skills and Expertise: Leveraging data analysis to understand the unique strengths and skill sets of ALX talents.

Talent-Company Alignment: Ensuring a precise match between ALX talents and companies' specific requirements through careful data mapping.

WORK EXPERIENCE

project coordinator

hope for the blind and handicapped
rehabilitating Association

June 2018-jan2023

As a Project Coordinator, I successfully undertook various key responsibilities and achieved notable milestones:

Project Proposals and Concept Papers: Developed comprehensive project proposals and concept papers for resource mobilization, showcasing the ability to articulate project objectives and strategies effectively.

Project Implementation, Monitoring, and Evaluation: Led the implementation, monitoring, and evaluation of projects at the Association, ensuring adherence to timelines and objectives.

Marketing Capacity Enhancement: Formulated a project proposal titled "Improving the Marketing Capacity of the Hope for the Blind Association" and successfully secured funding from the Embassy of Poland.

Carpet Production and Export Enhancement: Developed another project proposal titled "Maintaining and Improving the Organization's Carpet Production and Export Business," securing funding from the Embassy of Finland.

Capacity Building and Expansion: Created a project proposal titled "Expansion of Carpet Production for Export and Building the Capacity of the Association by Making the Working Premises Accessible." Secured funding for this initiative from the Abilis Foundation.

These achievements highlight my proficiency in project development, fundraising, and successful execution of initiatives aimed at organizational growth and impact.

Main teacher

school of tomorrow

Nov 2015-june 2018

Teacher: school of tomorrow, Addis Ababa
